THE DAILY NEWS.

Largest Circulation .- THE DAILY NEWS BEING THE NEWSPAPER OFFICIALLY RE-COGNIZED AS HAVING THE LARGEST CIR-ING IN THE POSTOFFICE AT THE END OF EACH WEEK, ACCORDING TO THE PROVIS-IONS OF THE NEW POSTOFFICE LAW.

LOCAL MATTERS.

AUCTION SALES THIS DAY. LETTCH & BRUNS will sell at 11 o'clock, on occumulation Wharf, a cargo of sugar and mo-STREET BROTHERS & Co. will sell at 12 o'clock, on Brown's South Wharf, a cargo Porto Rico sugar and molasses.

Holmes & Macbeth will sell at 11 o'clock, at West's stables, Queen-street, mules, stallion, &c.

MEETINGS THIS DAY. Charleston Typographical Union, at half-past Stonewall Fire Company, at 5 P. M.

NOTABY PUBLIC.-G. H. Sass, Esq., attorney at law, has been appointed by Governor Scott a no tary public for South Carolina.

THE MARINER'S CHURCH.—There will be services in the Mariner's Church, Church-street, tomorrow, Sunday, at halt-past ten o'clock in the morning, and four o'clock in the afternoon.

ARRIVAL OF TROOPS .- Four companies of the Thirty-third regiment of United States troops, under Major Ogiloy, reached the city yesterday. They are to be consolidated with the Eighth regiment, under Colonel Bomford.

PERSONAL .- Mr. James Brennan, of Buffalo. New York, who is travelling in the interest of the Feuian cause, is in the city for a few days, and staying at the Pavilion Hotel, where he will be glad to receive the visits of the friends of the Emerald Isle.

CITY STOCK .- Mr. Andrew M. Moreland purchased forty-three thousand dollars City of Charleston six per cent. stock yesterday, the largest amount at sixty-three cents. The same purchaser offered afterward sixty-four cents, which offer was declined. This is an advance of at least three per cent. on the quotations of the day before

THE BELL RINGERS drew another large audience last evening, and furnished, as they have done on former occasions, melody of the sweetest kind, in the manipulation of their pure toned bells, harp and silver cornets. The clever artists who compose this talented corps have, since their advent into our city, been recognized by the liberal patronage of appreciative audiences. They give a matinec for schools to-day, and one more performance to-night.

THE KINGSTREE FIRE COMPANY .-- The people of Kingstree have wisely formed a fire company for the protection of their houses and property, but they are unable without assistance to procure an engine for the use of the company. In this dilem ma, Mr. Solomon Beutschner, the president of the company, has come to Charleston to solic't subscriptions. We commend him and his cause to the pub lic generally, and especially to the merchants who have customers in Kingstree, and also to the insur

CZUBS AND STARS .- The amount of business before the Mayor yesterday was rather small: Fernanda Conner, colored, arrested on suspicio

of larceny; no proof; prisoner di-charged. Saml. Middleton, colored, for baving Mr. Ten nent's carpet in his possession; ne proof of larceny; prisoner discharged.

Frederick Behrman, white, for buying a stolen watch; no proof; discharged. John Cheney, white, for keeping a junk shop wi hout a license. Fined \$10.

THE JEWISH PASSOVER .-- T is great festival of the Hebrew Church, in commemoration of the exodus of the Israelites from Egypt, during which time they subsisted on unleavened bread or matzos. commenced last evening and will continue eight days. The first two evenings' exercises appropriate to the occasion are held in the synagogues and in the houses of the Hebrew families, the services have ing particular reference to the trials endured by the Israelites, and their final deliverance from the hands of the Egyptians. During the Passover unleavened offered and unanimously adopted: bread only is used, which is symbolical of the fact | Whereas, It is an agreeable and pleasant duty to that in their hurried exodus the Israelites did not have time to prepare raised bread. One important feature of the occasion is the dispensation of alms to the needy, without respect to denomination.

OUR NEW YORK STEAMSHIPS .- Among other inducements which are not only steadily and surely securing for our city the trade which caused her prosperity before the war, but are largely extending the field of her influence, are the admirable lines of steamships now plying from this port to the various Northern cities. The character of the vessels, their regular time, able officers, and freedom from delays and accidents, are giving to them a carrying trade of large and growing proportions.

The New York steamers particularly, we are pleased to learn, are obtaining good freights in this direction, the consignments being for various points in all the States, South and West. The steamship Charleston, Captain Berry, which arrived here carly on Friday morning, had an excellent freight and a good passenger list, as well as a beautiful steam fire engine for our Georgia neighbors. This superior steamship makes generally quick and regular time, and both the ship and officers enjoy a high popularity. The steamships of this line leave each port punctually on Tuesdays and Saturdays.

REPORTERS' CRUMBS .- There were confirmations at the German and English Lutheran churches

The churches, yesterday, were well attended, and the day had rather a Sabbatical appearance. The hotels still continue crowded with travellers

The steamer St. Helena vill make an excursion trip around the harbor at four o'clock to-day. Dr. Hicks will preach in the English Lutherar Church at eight o'elock to-morrow night, metead of

half past seven o'clock as heretofore. The velocipede fever has not abate 1 one jot; sever al machines have bee imported, and the formation of a school at an early day is prophesied.

Templeton opens the theatre on Monday night. The Bell-Ringers give a matines at 3 P. M., for the benefit of schools and others. Price for scholars | the offigers, the beautiful tribute of their respect and

twenty-five cents.

The new steamer for the Eagle Fire Company did not arrive yesterday, as was expected by some.

Cartain Berry, with his characteristic hospital ty, entertained the delegation that went to meet the "Georgia," yesterday morning, with a breakfast on board his fine vessel.

But a few-days will intervene between this and Ali Fools' Day, and the wags and jesters are deeply concorned in getting up novel hoaxes and jocular "sells" and surprises for the injectation of their unsuspect-

THE NEW STEAM FIRE ENGINE FOR AUGUS-TA .- At an early hour vesterday morning, the steam ship Charleston landed at her pier, and soon after the Steam Fire Ergine Georgia, for the Independent Fire Company of Augusta, was landed. As soon as she was got in readiness to move, her drags wer manued by the delegation of the "Etna," which CULATION IN THE CITY OF CHARLESTON, had patiently awaited her arrival since the night PUBLISHES THE LIST OF LETTERS REMAIN- previous, and the delegates from Augusta belonging to the company. She was carried to the neat and commodious quarters of the Etna, Queen-street, where the members took her in hand overhauled he and put her in trom for her journey homeward. The Ætna's did their best to make their Augusta friends teel at home by endeavoring to show them every courtesy in their power. After dinner the drags were again manned and the Georgia hauled to the South Carolina Railroad depot for ship uent to Au gusta. The Augusta delegation returned to the Etna house, and in the evening they spent a good time over a rousing bowl of punch, pledging friendships and cementing ties. We learn that the Augusians will leave to-day, and it is hoped will carry with them agreeable recollections of their brief stay here, where every effort was made to render their

"THE NINETEENTH CENTURY."-We learn that a monthly magazine is soon to be issued in Charleston under the auspices of a "Round Table" oterie of gentlemen well known in literary, profes sional and mer antile circles. The work will be directly in charge of Rev. W. W. Hicks, D. D., and 'Personne" (F. G. De l'ontaine, Esq..) and will aim to supply a vacant place on the literary tables of our Southern houses. Our ablest writers will furnish entertainment and instruction, so that in both a local and general sense the magazine may be as attractive as possible. It is proposed to make the "Round Table" department specially interesting to the merchant, the agriculturalist and scientific man while a miscellaneous collection of facts and fancle will constitute the frost work of this literary plum pudding. Dr. Hicks, although not long a resident of Charleston, has won both admiration and respect as well by his learning and personal charm as by his rare and touching eloquence; while Mr. De Fontaine as a fluent, original, graphic Southern writer, has few if any equals in the world of periodical literaure. These two gentlemen will be the main prope of the new work, and we sincerely hope that, as a home enterprise, the "Nineteenth Century" will have all the encouragement and support it deserves. We may add that one of the most attractive fea tures of the new magazine will be "Reminiscences of the Bivouac and Battlefield," to be written by

MORTALITY OF CHARLESTON FOR 1868.—Below is a condensed statement of the mortality o Charleston for the year ending December 31, 1938 as taken from the annual report of the City Regis-trar, which was submitted to Council at its last meeting. It is worthy of remark that although the population of the city is almost equally divided be ween whites and blacks, the mortality of the blacks was more than double that of the whites. The Registrar's estimate of the population of the city at 35,000 seems too low. At the last election the number of votes cast was 10,000, and making al reasonable allowance for fraud, at the usual propostion of voters to population, that would give us a population of at least 40,000, and more probably 45,000. The proportionate mortality would then be one in 33 or one in 37, instead of one in 29:

8	Total number of deaths during the year	JĘ
0	CLASSES.	
	Male—whites	
0	Total whites	
	Femule—blacks and colored396	
3	Total blacks and colored	
	Grand total	8
1	Natives of Charleston	
•	Natives of the United States	

Total.... The proportional mortality to population, 1 in 28,973, the entire population being estilated at 35,000. TESTIMONIAL TO DR. A. G. MACKEY .- WO

have been favored with the following account of a recent presentation of a testimo ial to the Collector of the Port: A meeting of the officials of the customhouse was recently convened. Mr. Charles H. Groves was ap-

pointed chairman, and Mr. C. L Beecher secretary The chairman having stated the object of the meeting to be for the purpose of testifying their re the following preamble and resolutions were then

offer a testimony of respect and esteem to one with whom we have been officially and harmoniously associated for a period of several years, and much more so when that association has been marked by gentlemanly courtesy and acts of kindness and consideration on the part of our chief; and, whereas, the employees of the customs of this city desire to express to Dr. A. G. Mackey, Collector of the Port of Charleston, their grateful appreciation of the uniform kindness he has always shown them, of the high order of intelligence he has exhibited in the varied and complicated duties of his office, and of his constant aim to promote that concord and hermony which have always prevailed among them, and auxious to testify their respect in some tangible form; be it therefore

Resolved, That the sincere thanks of this meeting be tendered to Dr. A. G. Mackey, Collector of Cus-toms of the Port of Charleston, for the unvaried offi-cial kindness each of us has received from him during the past four years.

Resolved. That a committee of three be appointed

for the purpose of procuring and presenting to Dr. Mackey some suitable testimonial in the name of the employees of this customhouse.

Resolved, That a copy of the foregoing preamble

and resolutions be engrossed and transmitted to Dr. A. G. Mackey, and that the same be published in the papers of this city. The committee procured from the jewelry estab s-lument of Me-srs. William Carrington & Co. a very handsome gold double case Waltham watch and

massive chain. The cap of the watch bears the following inscrip-

Fon. A. G. Mackey. Collector, From his friends, the Officers of the Customs Charleston, S. C., March 12, 1869. The engraving is a very beautiful specimen of the

artistic skill of Mr. William Fisher, of this city. Yesterday, after the close of official busines-, Mr. C. H. Groves, chairman of the meeting, notified Dr. Mackey of its action, and the Committee on Presentation, accompanied by nearly all the officials of the Custombouse, were introduced. The chairman of the committee, Mr. R. James, aft in address marked by high qualities of appropriateness and sincerity, presented to the Collector, in the name of

friendship. Dr. Mackey responded in words both eloquent and impressive, returning his thanks to the officers, and assuring them of his bigh appreciation of the gift, which he would both wear and cherish as long as life lasted.

PATAPSCO GUANO.

Letter from James Pagan. CHESTER, SOUTH CAROLINA, JADUARY 6, 1869. Dear Sir-I have just received a communication rom Geo. W. Grafflin, Esq., Tressurer of Patapso-Guano Company, requesting my opinion of the "PA-TAPSCO," to be sent direct to you-which I take pleasure in doing, as I sincerely believe that it is the est fertilizer now in use. I have tested its merits of bringing the famous fully, and find those who have used it alongside of other popular fertilizers, do not heeitate to give it the preference; there are as many kinds in use here as there are merchants who deal in it. No two houses recommend the same kind, but during the

last season I had a good opportunity of introducing the "PATAPSCO" GUANO to some extent. I gave to ten (10) different planters 500 pounds Guano to put each on one acre of land, and agreed to take part of the product for pay. They all succeeded well. I got nearly 100 per cent. profit from the ten acres, and the planters are satisfied that they got 50 to 100 per cent, more than they could have expected on the same land without the GUANO. I also sold small quantities to some twenty or thirty planters, who tried it on all sorts of land. Some of them certify to wonderful results, and every one of them have engaged to take more for the coming season. I expect to sell ten times the amount which was taken | will also be sold at such prices as to defy competi-

last season. I began in 1867, and have not heard one man say it did not over-pay him for his outlay. In some respects it must be superior to the Peruvian Guano. For instance, you can mix the seed with the PATAPSco, and the Peruvian must be covered before plant ing. The "Patarsco" acts at once upon the sprouts, as soon as it comes from the seed, and makes it start right off growing, and prevents the sickly stage which cotton, without the stimulus, has to go through-you know this. For two or three weeks the cotton plant is in a condition which is so precarious that no planter can say that he has a certain stand. I believe the "PATAPSOO" secures a better and more healthy stand than can be had by the application of any other fertilizer. I speak from experiments made for two years. I have planted a lit-SPICES, &c. the cotton for the purpose of watching the result, and am sure that rolling the seed in PATAPSCO Guano will secure an early and healthy stand of cotton, which is like getting a good start in any kind of

I would recommend 250 to 300 nonnils to the acre I made 600 pounds but from one acre by planting 500 pounds of "Parapsco," which made 260 pounds the car before without it, and the s-ason of 1867 was better for cotton than 1863. The same field on the part not fertilized made more in 1867 than in '68. I think it would pay best, however, for about 500 pounds to the acre. Respectfully,

JAMES PAGAN.

Wyman, Byrd & Co., vs. Grady & Hawthorn. sold, at the Old Postoffice, That LARGE LOT OF LAND in Call Bill to Foreclose Mortgage, &c.

By virtue of the decretal order of his Konor. Judge
James L. Orr, made in the above case, I will sell
to the highest bidder at Greenville Courthouse, on
MONDAY, the 5th of April next,
The PREMISES described in the pleadings, viz:
All that PIECE, PARCEL AND TRACT OF LAND,
situated in the County of Greenville. seven miles
from the Countours and six from the Greenville
Railroad Depot. lying on both sides of Reedy River,
containing four hundred and ninety-nine acres,
more or less, in a high state of cultivation Upon
the place is located the vell known Cotton and Wool
Factory of the defenda its. The Cotton Factory is in
full operation, with some nine hundred and fifty
spindles and twent four looms; the Wool Factory
with one hundred and twenty mule spindles, is also
in good order and successful operation. On the
premises are a good Flouring, Grist and Saw Mills,
with blacksmith shop—two comfortable dwelling
houses and several small framed houses for the
operatives, with a nice brick church. The water
power at all seasons is sufficient to drive three times
the amount of machinery now in operation. The
country is remarkably healthy, with a climate unsurpassed in the United States, with a sober, industricus and energetic population. Wooded lands adjacent well timbered, can be purchased at reasonable prices. This is the best opportunity for an investment to capitalists that has been offered in the
up-country since the war.

Terms cash. Purchaser to pay for papers and
stamps.

Shirts into general use, and believing that it is only once to be well pleased with them, will hereafter of Dry Goods and Notion Dealers.

corrup ion, have been puited and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or use.

Scrofulous poison is one of the most destructive enemies of our race. Often this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection turough the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, fubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by crustions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this SAR-APARILLA is a sylsable, even when no active symptoms of disease appear. Persons affaired with the following complaints generally find immediate relief, and, at length, cure, by the use of this SAR-APARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, salt Rheum, Scald Head, Ring Worm, ore Fyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also, in the more concealed forms, as Dyspepsis, Dropsy, Heart Di-ease, Fits, Epilepsy, Newaga and the various ulcerous affections of the muscular and nervous systems.

Symbilities or Venercal and Mercurial Diseases are

THESE STOVES STAND UNRIVALLED FOR capacity, dur-britty, conveniences and the general purposes to which cooking Stoves are used. The PHILANTHROPIS1 is extra heav, plated, and has Ash Drawer; can be made into a six-boiler hole whove; has cast iron Witer Tank galvanized, or enamel lined. A strictly first-class Stove.
